

Hello Nello & Sandy,

Firstly I just want to say a big thank you to the both of you for the great job you did.

Hair and Make up is a big concern for any bride, so when I read that Marco could arrange all this and come to the Villa in Italy this certainly ticked another box for me deciding to marry in Italy.

I decided not to get any trials done at home as I felt every professional hairdresser has their own unique creative way's of making their client's look beautiful and my trust was in Marco that he had the best chosen, which of course he did! I had styles in mind and on what I liked, I had pictures but I forgot to bring them along on the morning of the trial but this was not an issue as you have great team member who had very good English, who I could discuss my ideas with and Nello your English was not bad either! and you did my hair trial just the way I wanted.

On the morning of my Wedding you worked so well together, you had all the other party members looking fab in no time, everyone was very happy with their makeup and hair.

You really made me feel very relaxed, and like a princess of course on my big day!! I was very happy with how my Hair and Make up turned out. I wanted my look to be Vintage and Classy and that's what I got!! All went nicely with my dress. My make up didnt need any touching up all day, only a bit of gloss of course every now and then and my hair hair stayed in place nicely all day too. Received lots of complements from friends in Work, when showing them my Wedding Ablum, said I looked like Grace Kelly! An Old movie star!!

Many Thank,  
Vicky

Ps still annoyed you both dont like Madonna ha ha!!
