

Dear Nello and Sandy,

Thank you for your kind wishes.

Initially when I booked you I was concerned about the price of the hair styling service (from all the potential suppliers) because hair styling is much cheaper in Ireland, but I have to say, in hindsight, the service was definitely worth it.

It was lovely that you were able to come to the villa to do my own and the guests hair. It was great to relax that morning without having to travel back and forth to Cortona before getting ready for the ceremony. I also appreciated that you listened to my request for myself, my mum and my sister to get our hair done together. It was a nice moment for the three of us.

You were always smiling and patient and relaxed us from the hair trial to the day itself. It was a lovely touch that you brought some prosecco, very thoughtful of you and nice for us to celebrate with you.

Everyone complimented my hair. I left you with very little hair to work with and you managed to transform me. All my family and guests were delighted with their hair. Some were even not recognised by their friends from photos, you had made such a transformation !! :)

Thank you so much for making me feel so special on the day. I was very nervous and you looked after me very well.

Thanks again !!
