

Hello Nello,

A quick email just to thank you for the amazing work you have done on my big day!. We were all delighted with your creation and we kept our hairdo all the night.... great!

You and your team made us feel special and it was very nice to have such a professional as you in charge of the day. Everything went very smoothly and with no stress at all for me... so thank you so much.

I would like you to pass my thank you to Sara for the make up.... everybody said I looked stunning :-)
And it was very kind of her to offer me her lips stick... so thoughtfull.

I would not like to change a bit of the wedding because everything was so perfect.... a bit because of you too.

can t wait to receive the pictures from Domenico....

I went to my hairdresser yesterday and I showed him pictures... he said it was a very good work you made... very natural.
I cut all my hair off I have short hair now :-) I gave my hair for people who have cancer, so they can make a wig for one of them.
I feel a bit naked without them but I feel very good inside thinking I made someone happy.... someone who really need them.
And it s going to grow back anyway :-)

Well.... that 's it for me. Thank you again for your very good work. I could not wish for better.

Lots of love

Tania and Lee
